Gregg Museum of Art & Design, The Historic Chancellor's Residence, NC State University, located at 1903 Hillsborough Street, Raleigh. **Through Dec. 29** - "Southbound-Photographs of and about the New South". What comes to mind when one envisions "the South"? Depending on perspective, time frame, and the individual, the answers to this question can quickly become

complicated. NC State's Gregg Museum and Duke's Power Plant Gallery have joined forces to show "Southbound—Photographs of and about the New South", a joint mega-exhibition that seeks to reveal the South through the lenses of fifty-five contemporary photographers. Chosen by Mark Sloan and Mark Long of the Halsey Institute of Contemporary Art in Charleston, SC, "Southbound" presents places and images they saw as indelibly and irrefutably "Southern." **Through Mar. 15, 2020** - "Art's Work in the Age of Biotechnology: Shaping Our Genetic Futures," is a visually stunning and thought-provoking exhibition aimed at raising awareness about genetic engineering, biotechnologies, and their consequences through the lens of art and design. By combining science and art and design, participating artists offer new insights about genetic engineering by bringing it out of the lab and into public places to challenge viewer's understandings about the human condition, the material of our bodies, and the consequences of biotechnology. **Thomas E. Cabaniss Gallery at the Historic Residence, Through Jan. 26, 2020** - "Exotic Creatures of Beauvais Lyons". Evolution. Differentiation. The wondrous variety of individual creatures, each differing from the others. Many scientists, thinkers, and theorists have put forth their ideas of how the multitude of all living creatures came into being. The exhibit features factitious historical and scientific parodies by Dr. Beauvais Lyons, Director of the Hokes Archives and art professor at the University of Tennessee. Part archaeologist, part scientist, part satirist, part artistic visionary, Lyons, on behalf of the Association for Creative Zoology, presents evidence that exotica throughout the animal world is merely a representation of the creative presence in all things. **Ongoing** - Following its grand reopening on Aug. 26, 2017, one of NC State University's most historic buildings is now the permanent home of the Gregg Museum of Art & Design. The Historic Chancellor's Residence, located at 1903 Hillsborough Street, along with a 15,000 sq. ft. addition, increases the museum's visibility while significantly adding to its exhibition and programming space. Hours: Mon.-Fri., 9am-5pm. Contact: Zoe Starling, Curator of Education at 919/513-7244 or at (https://gregg.arts.ncsu.edu/).

North Carolina Museum of Art, 2110 Blue Ridge Road, Raleigh. **Through Dec. 31, 2020** - "John James Audubon's The Birds of America". Today only about 200 complete sets of "The Birds of America" exist. The Museum's set, bound in four leather portfolios, was acquired by the State of North Carolina in 1848 and kept for more than a century at the State Library before being transferred to the Museum. The hand-colored engravings were recently conserved and rebound. In the new Audubon Gallery, the NCMA presents Audubon's work in special cases designed for each of the enormous "double elephant" volumes, with hydraulic lifts that allow staff access so that the pages can be turned periodically to display a new selection of birds. **African Art Gallery, East Building, Level A, Ongoing** - Featuring African creativity spanning 16 centuries. The new gallery will be three times as large as the old West Building gallery, allowing the Museum to display nearly twice as many works - including some that have not been on view in a decade, and others that are newly acquired and have never before been on display. The new gallery will feature improved light control so that light-sensitive works of art, such as textiles and works on paper, can be given more visibility, shown in curated rotations. The gallery will include a designated space to highlight North Carolina collections of African art from private collectors and public institutions, beginning with work from Bennett College. It will also incorporate African and African Diasporic modern and contemporary art, including a site-specific wall drawing by Nigerian-American artist Victor Ekpuk. **West Building, Through Jan. 5, 2020** - "What in the World Is a Grain Mummy?". While conducting research on the ancient Egyptian collection, NCMA Egyptologist Caroline Rocheleau discovered through analytical observation—and confirmed using medical technologies—that an object in the Museum's collection once thought to be a falcon mummy is, in fact, a grain mummy. The mummy was at one time believed to be a fake because it did not contain bird bones. Rocheleau curated What in the World Is a Grain Mummy? to present this humble bundle and its falcon-shaped coffin for the first time and to unravel the mysteries of the NCMA's only Egyptian mummy. The exhibition focuses on how the scientific method was used to re-establish a questionable item as a genuine Egyptian object. It also delves into the concept of grain mummies; explains their role in ancient Egyptian funerary religion; and discusses the importance of emmer wheat and barley in ancient Egyptians' diet, economy, and religion. The exhibition also explores why the grain mummy was once mistaken for a falcon mummy and compares it to an actual ancient Egyptian falcon mummy. **Through Jan. 19, 2020** - "Frida Kahlo, Diego Rivera, and Mexican Modernism from the Jacques and Natasha Gelman Collection". The exhibition presents the paintings of two icons of the 20th century. Few artists have captured the
