

DISPATCH FROM THE JOEY POUCH

Vee Sampson & Philip Garcia

From the beginning of their friendship, Vee Sampson and Philip Garcia have shared their idiosyncratic perceptions with one another. These were most often cellphone pictures of everyday weirdness that ultimately landed into the exhibit “Dispatch from the Joey Pouch”, for which Vee was the image maker and Philip was the editor and curator. The show offers photography as a divining rod into many questions, one of which being “How do we human?”

Philip will be offering a brief talk about Vee’s work and how and why it is more important than ever in today’s ever-changing landscape of Being.
