

Turtle Island Pottery

Handmade pottery by Maggie & Freeman Jones

Turtle Island Pottery has been displaced by Hurricane Helene.

They are fortunate to have inventory that was not harmed, but their home and studio are damaged and they have to move into their sales location.

But, they need help with the move, so buy something online and there is a GoFundMe account set up for them at <https://gofund.me/52dbdf6c>.

You can see their work online at the website listed below for available items.
