Scientists, engineers and others in related fields work through similar steps in conducting experiments and attempting to prove or disprove a hypothesis. His ties to the Spartanburg community originate from his longtime employment at Milliken and Company. Tait was born in Old Town, Maine in 1917 and graduated from the New Hampshire Institute of Arts and Science. In the late 1940s, he moved to New York City where he designed an exclusive line of ladies' handkerchiefs for the department store B. Altman, now considered vintage, collectible items. He also became associated with the American Artist Group designing Christmas cards, an occupation which he kept up throughout the majority of his artistic career. Krisel was a distinguished artist, architect, and teacher as well as a loving father and husband. Though Krisel may not be a household name among Spartanburg residents, he has made a significant artistic contribution to the Spartanburg community. Born in Brooklyn, NY in 1920, Krisel's interest in art and design started at a young age. He attended the American Artist School in New York city as a teenager where he met renowned modern artists, including Piet Mondrian, who greatly influenced his abstract style. After studying architecture at the New Bauhaus in Chicago from 1946-1949, he received his graduate degree from Illinois Institute of Technology in 1952. The following year, he began working for architectural firm Skidmore, Owings and Merrill when Roger Milliken hired them to design Milliken's new research facility in Spartanburg. Upon realizing Krisel was also a sculptor, Milliken hired him to design the spray fountain outside of the facility which functions as a recycler of air conditioning water. He then went on to design the Trident Fountain located outside of the Papadopoulos building on Wofford College's campus. Hours: Mon.-Fri., 10am-7pm & Sat, 9am-3pm.
